About Dorsainvil Foundation, Inc.

Dorsainvil Foundation, Inc., is a 501(c)(3) charitable organization founded in 2001 dedicated to supporting individuals in need of healthcare in Haiti. Through the generosity of various pharmaceutical companies and private/corporate donors within Haiti and the United States, the Foundation sponsors free medical clinics, headed by Dr. Pierre Dorsainvil, every year to provide necessary health care to the poor and disadvantaged in Haiti. The foundation also has projects to increase health awareness and to educate the Haitian community about the importance of proper nutrition, exercise, modified lifestyle and good health.

Haiti's Earthquake

On January 12, a 7.0-magnitude earthquake hit outside of the capital of Haiti, Port-au-Prince, causing widespread destruction to homes, hospitals, schools, government buildings, roads, and lives. According to reports, as many as three million people may have been affected by the quake. Although emergency responses from the U.S. Department of State, the American Red Cross, Mercy Corps, and other organizations have been made, Haiti needs additional and immediate support to provide food, shelter, medical supplies, and emergency care.

Donations

Dorsainvil Foundation is asking individuals to help us provide immediate assistance and emergency medical care for the men, women, and children affected by the earthquake in Haiti. Dr. Pierre Dorsainvil will go on the first of many earthquake relief missions to Haiti on Saturday, January 16, 2010.

Please make a tax-deductible donation today, in any amount, to help support the cause. 100% of the donations are used for emergency medical care in Haiti. Checks may be made payable to the Dorsainvil Foundation, Inc., and mailed to the Foundation or given to Dolores Dorsainvil.

For those that would like to donate supplies, here is a list of items needed:
